FRENCH CLUB MEMBER

"Je préfère Français" means, "I like French." I like being a part of our school's French Club. My parents are from Mauritius where most of the people speak French so we read, write, and speak French in my house. Our club encourages other students to begin to learn a second language early, especially if they travel to other countries. I help to look for films on French speaking countries and for books by French speaking authors. I put together a list of jobs that would like you to speak a second language.

CLUB AND PRIZE PROGRAM ORGANIZER

Subtitles anyone? I put together The Foreign Movie of the Month Club by finding other students who are interested in foreign films. We choose children's foreign films with English subtitles. The number of film viewers is on the rise. I even made a suggestion sheet and suggestion box for students to recommend a foreign film they have seen. Students receive a prize if the film they suggest is picked for viewing. 2004 - Present

 - Antonyms (words that are the opposite of one another)
 - Synonyms (words that mean the same)
 - Acronyms (a word formed from the first (or first few) letters of a series of words)
